Education

University of Connecticut | Storrs, CT

- BE Multidisciplinary Engineering
- BSE Computer Science
- Minor: Industrial Design
- GPA: 3.7

Skills

- Languages (English, Chinese)
- Carpentry
- MIG Welding
- Metalworking
- Sewing
- Scenic Painting
- CAD (AutoCAD, SOLIDWORKS, Rhino)
- Programming (Python, C, C++)
- 3D printing

Coursework

Entertainment Engineering

- Scenic Construction
- Drafting for Entertainment
- Rigging for Entertainment
- Scenic Painting Independent Study
- Electrical Circuits

Computer Science

- Intro to Software Engineering
- C++ Essentials

Industrial Design

- Process and Practice
- Digital Fabrication
- Solidworks for Industrial Design
- Materials and Techniques

Experience

Student Space Coordinator | Krenicki Institute | Jan 2026 - Present

- Assisted students with understanding project processes including 3D printing, sewing, and mold making.
- Coordinated events through collaboration with students and industry professionals to organize logistics and ensure smooth execution.
- Maintained organization of the makerspace through consistent upkeep and producing functional organizational tools using CAD.

Scenic Constructor | Jan 2023 - Present | Connecticut Repository Theatre

- Utilize schematics to construct set pieces using woodworking and metalworking techniques.
- Deliver quality show productions by constructing scenic elements within the project deadlines.
- Mentor underclassmen in scenic building techniques, creating a collaborative and educational environment.

Team Lead | Ride Engineering Competition | Sep 2025 - Present

- Led a multidisciplinary team in the design and fabrication of a scale amusement ride for a national university-level competition
- Managed project deadlines and available resources while delegating to team members to ensure deliverable requirements were met.
- Iteratively designed and tested 3D printed mechanical components, refining the designs across multiple prototypes.

Entertainment Technician | Busch Gardens Tampa | May 2025 - Aug 2025

- Fabricated, installed, and dismantled seasonal decor such as planters and food kiosks to allow for a smooth transition between events.
- Restored and refurbished haunted house attractions to prepare for the annual Halloween event.
